The Greatest Challenge!

The Apostle Paul challenges the body of Christ to become mature - Ephesians 4

A conference designed for everyone with a desire to grow in their spiritual maturity

Creating the environment for spiritual growth and maturity with lifelong learning is a tremendous challenge. Sadly, consumer church is a reality. How can we change this? In this one day conference we want to look at the major areas that would help us to understand what has happened in our culture, what we need to change and how we can create environments for spiritual maturity.

Laurence Singlehurst:

Session 1 lessons from church history - effects of post-modernity - impact of consumerism on our lives - enthusiastic dualism

Laurence Singlehurst:

Session 2 value-based discipleship - new ways to put in foundations for spiritual maturity

Mark Powley:

Session 3 highlighting key components for spiritual growth and development - resources to help you grow towards spiritual maturity

Jamie Featherby:

Session 4 spiritual maturity in the context of the workplace - taking our spirituality to work
